

# Help Guide

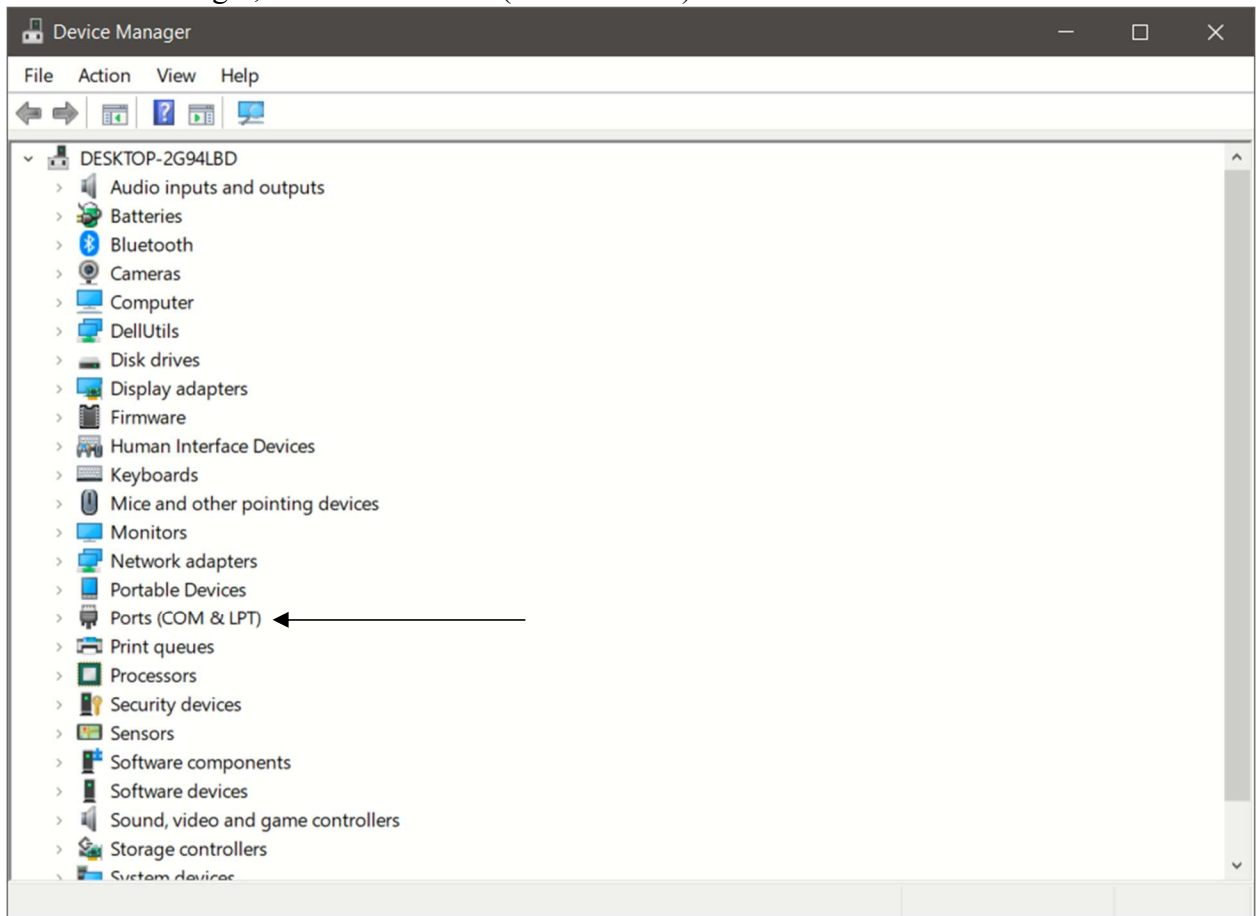

## Finding the Port Number

### WINDOWS

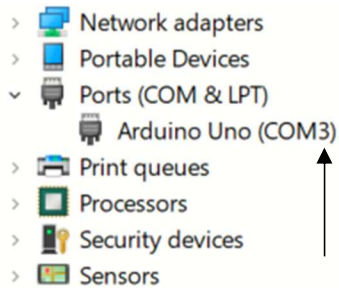

1. Open Device Manager

2. In Device Manager, look for the Ports (COM & LPT) Tab

3. Listed next to the Arduino Uno tab is the port number (3 in this example)

## MAC

1. In the terminal type:

```
ls /dev/*
```

2. Look for the port number listed (3 in both examples) at the end of the following:

```
/dev/tty.usbmodem3
```

Or

```
/dev/tty.usbserial3
```
